# ANTI-BULLYING DAY

What should you do if you see bullying happening?

An 'upstander', on the other hand, sees bullying and helps the person who is being bullied. Never join in with, laugh at or encourage bullying. You can support the person who is being bullied by walking away from the situation with them. Tell them that they don't deserve to be treated in that way and encourage them to reach out for help. If you feel confident and safe, you can tell the person who is bullying, calmly and directly, that their behaviour is not OK. Otherwise, you may decide to report the bullying to a trusted adult.

# DO YOU KNOW THAT...

Hungarian scientists

University in Budapest  
have shown that people  
born in spring are  
optimistic and  
successful people in  
life, and on top of that,  
they show  
extraordinary  
creativity.
